

The BLAIRMORE GRAPHIC

VOL. 1, NO. 4.

"Serve the Church that the Church May Serve You."

CENTRAL UNITED CHURCH BLAIRMORE

Rev. James McElvey, Minister

Services Sunday next:
11:00 a.m., Senior school.
2:00 p.m., Junior school.
7:30 p.m., Public Worship.

ST. LUKE'S CHURCH, BLAIRMORE

Rev. W. Grazier, Rector

There will be no service this coming Sunday.

SALVATION ARMY, COLEMAN

Captain and Mrs. T. Smith,
Officers in charge.

Sunday services:

11 a.m., Holiness meeting.

2:30 p.m., Directory class.

3 p.m., Sunday school.

7:30 p.m., Salvation meeting.

Tuesday: 7:30 p.m., Red Shield Auxiliary and Home League.

Thursday: 8 p.m., Praise meeting.

Funerals, dedications and marriages on application to the local officers.

HILLCREST UNITED CHURCH:

Services every Sunday at 3 p.m.

BELLEVUE UNITED CHURCH:

Services at 7:30 p.m. every Sunday.

COWLEY UNITED CHURCH:

Services alternate Sunday mornings at 11 o'clock.

Rev. W. H. IRWIN, Minister.

BELLEVUE BAPTIST CHURCH

Pastor: Rev. Fred Bennett

Sunday school 10 a.m.

Morning worship 11 a.m.

Evening service 7:30 p.m.

Midweek meeting:

Wednesday 7:30 p.m.

A cordial welcome awaits you.

Weather prophets scored again last week. They warned to expect snow—so we had snow over most of Alberta last Friday morning, Aug. 16, what can be considered a very early date.

Columbus Club meet Lethbridge Gal. Miners in the first two games in the best 3-in-5 series in the southern Alberta senior baseball playoffs at the local stadium on Sunday, games at 2 and 5:30 p.m.

Last week end Pass residents witnessed several CPR main line trains make the journey through the Crow to and from Vancouver, owing to a mud slide on the main line east of Field. By Tuesday the slide was cleared and traffic resumed.

MR. AND MRS. HAROLD PINKEY HONORED

On Saturday last the staff of the F. M. Thompson Co., and members of their families held a surprise party at the home of Mr. and Mrs. Harold Pinkey on the occasion of their twenty-fifth wedding anniversary.

Mrs. A. Sykes presented Mrs. Pinkey with a lovely bouquet of gladioli and later in the evening Mrs. R. Simister presented the honored couple with an engraved silver tray and a silver meat server, for which they graciously thanked the staff.

Dainty refreshments were served and games were played during the evening the party breaking up with the singing of "For They Are Jolly Good Fellow's."

Among those present on this occasion from out of town were Mr. and Mrs. Charles Hoefer, of Trail, BC and Mr. and Mrs. Eric Horquist and family, of Fernie, BC.

Altogether there were forty or more present.

"V"

COUPONS VALID

Meat coupons M40 to M50 and butter coupons R10 to R17 in consumer ration books will become invalid for the purchase of these commodities after August 31. The Ration Administration of the War-Time Prices and Trade Board has announced.

"Beavers" and "Buffalo" coupons, issued to members of the armed forces and other temporary ration card holders, will not be affected by the change, and all sugar coupons will remain valid until further notice.

"V"

VISITORS TO THE NATIONAL PARKS

Visitors to Canada's National Parks where the day to day record is kept numbered approximately 450,000 up to the end of July, according to a statement released by the Honorable J. A. Gien, minister of mines and resources. This compares with an attendance of approximately 600,000 during the whole of 1945 and is perhaps indicative of the increased tourist travel all over Canada in this first year of peace.

During the month of July alone 60,873 visitors passed through the eastern gateway into Banff National Park, Alberta, an increase of more than 18,000 over the same month last year. The other National Parks in Alberta also report similar percentage increases in the number of visitors. Waterton Lakes attendance figures jumped from 19,000 to 45,000; Elk Island, the home of the buffalo, from less than 10,000 to nearly 17,000; and Jasper National Park from 4,000 to 7,500 as compared with July of last year.

In Saskatchewan, Prince Albert National Park had 11,700 visitors compared with 8,000 in July 1945, and Riding Mountain, National Park in Manitoba, had nearly 55,000, an increase of more than 15,000 over the same period last year.

July reports from the National Parks in British Columbia, Ontario, Prince Edward Island and Nova Scotia tell a similar story—substantial increases over July of last year. For instance, Keewatin Park in British Columbia, had an increase in visitors from 8,700 to 21,600; Point Pelee in Ontario, from 19,400 to 30,800; Prince Edward Island National Park from 17,000 to 21,000; and Cape Breton Highlands National Park in Nova Scotia from 5,000 to 7,000.

A feature of this year's attendance at the National Parks is the number of visitors bringing their own camping equipment, including many automobile trailers, and making use of the campgrounds which have been equipped for that purpose in all the National Parks. Superintendents report that these campgrounds have been used to a greater extent than ever before thus relieving the pressure on other park accommodation.

"V"

A change of policy is only convincing if it comes from a change of heart.

BLAIRMORE, ALBERTA, FRIDAY, AUGUST 23, 1946.

\$2.00 PER ANNUM

MRS. ALEC FIFE

Funeral services were held on Monday, August 19, at 2:30 p.m. for Mrs. Alec Fife, who passed away in the Colonial Mineral Hospital Saturday, August 17, at 5 a.m. The funeral services were held from the United church, Coleman, with Rev. McElvey of Blairstown officiating.

Mrs. Fife, a well known oldtimer of Coleman for the past 33 years, was born in Arbroath, Angus, Scotland, and came to Canada in 1913, residing in Coleman. The deceased took no prominent part in community activities.

Left to mourn her passing are her husband, Mr. Alec Fife, and four daughters, Mrs. Robert and Mrs. Ford, of Coleman, and Mrs. Oliver and Mrs. Morency, of Blairstown.

Interment took place in the Union cemetery, Coleman. Pallbearers were Dave Robert, Alec Morency, George Ford, Roach Oliver, Ronald Ford and Norman Ford. Hymns sung were "Jesus Lover of My Soul" and "Rock of Ages." Mrs. Brennan of Blairstown was at the organ—Coleman Journal.

"V"

BLAIRMORE VACATION SCHOOL

Blairstown Vacation School held under auspices of Central United church Sunday school from July 19 to August 9 on each work day morning from 9-12, excluding Saturday.

School consisted of 3 departments.

The Kindergarten group which included children aged 3-6, under the direction of Mrs. McElvey assisted by Jean McElvey, Audrey Cameron, Mrs. Upton and Muriel Oliver.

The Primary group, which included children aged 7-9 under the direction of Mrs. Hobden, assisted by Kay Davidson and Shirley Montalbetti.

The Junior group which included children aged 10-12 under the direction of Mrs. Hobden, assisted by Kay Davidson and Shirley Montalbetti.

On the last Friday night, a short demonstration was held when the children showed their parents and friends what they had learned and made during the preceding ten days. A good crowd turned out and appeared very interested in the work done by the kiddies.

The attendance at the school was highly encouraging to those who arranged it, as over 62 children's names appeared on the regster. Everyone enjoyed themselves and all voted that Vacation School should be held again next year.

PRICES BOARD TELLS REGULATIONS REGARDING LICENSING OF BUSINESSES

The Wartime Prices and Trade Board warns all holders of business licenses that they must report all changes of address and of name to the licensing division of the Board.

Regulations of the Prices Board require all manufacturers, persons buying goods for resale, or operating a service business, to hold a license. Once this has been obtained any change in the business

SURPRISE PARTY

A pleasant event this week was a surprise party held in the men's quarters at the local RCMP Police barracks for Constable W. A. Skillicorn.

Over thirty men friends from the Pass towns gathered on Tuesday evening to congratulate Constable Shields on his approaching marriage. During the evening a presentation speech was made by Mr. S. Banan and four chrome and red chairs were given the guest of honor with the best wishes of those who were present.

Sergeant Mudiman made a short speech for the staff, remarking that it was a satisfaction to all to know that Const. Shields will be remaining in the Pass for the present and establishing his home here.

Constable Shields is to marry Miss Iris Morrison, of Lethbridge and Vulcan, on August thirty-first and they will reside in Coleman.

"V"

WAR NOT ALL OVER UNTIL END OF YEAR FOR SALVATION ARMY

Toronto.—Not until the end of this year will the war be over for the Salvation Army, according to Commissioner Benjamin Orames, Territorial Commander for Canada.

While the work for the armistice forces ended in Canada in June 30, some Salvation Army supervisors will remain in the field overseas at least until September 30. Completion of administrative work in connection with the operation of the Salvation Army Red Shield War Services is expected to take until December 31.

The Salvation Army became the only Canadian Auxiliary Service carrying on field operations on July 31 when the other organizations turned over their activities. Since headquarters ended, Salvation Army headquarters in Britain, Australia, New Zealand, and elsewhere have been trickling back to Canada and The Salvation Army has been steadily increasing home front operations that were diminished because of loss of personnel to war activities. The Salvation Army volunteered its services before the war started.

A major outcome of wartime activities has been that large numbers of ex-servicemen who encouraged Salvationists as training centres here and on active service have turned to Salvation Army representatives for help and advice, said Commissioner Orames.

To restore The Army to full-time home front operations and carry out long-deferred expansions of facilities and services, the Home Front Appeal for \$2,000,000 opens across Canada Monday, September 16.

"V"

address, the business name, or any change or modification of the business must be reported within ten days of that change to the licensing division.

The director of licensing may cancel any person's license who fails to comply with these regulations, or who fails within sixty days of obtaining a license to comply with the regulations of the board concerning the fixing of the prices or who has not actually started up in the business he specified when obtaining the license.

The director of licensing may cancel any person's license who fails to comply with these regulations, or who fails within sixty days of obtaining a license to comply with the regulations of the board concerning the fixing of the prices or who has not actually started up in the business he specified when obtaining the license.

"V"

For the World's Hungry

Food products of every kind are even now more urgently required than during the war years. Canadian girls are working on the farm front helping to harvest the crops. Too precious to be wasted, coarse grain and non-food items are needed for the people of Canada and to help feed the hungry millions in other countries. Many farmers may save additional grain by raking their stubble this fall.

MORE SUGAR NEXT APRIL

Present indications are that there will be no further change in the present sugar ration until next April. The Financial Post reports from Ottawa. Since acreage sown to the 1947 crop is substantially higher and since imports out-turns are steadily improving, a considerable improvement in the Canadian ration might be possible at that time.

"V"

HILLCREST HAPPENINGS

Miss Valera Martinek, who has been visiting in Calgary for the past three weeks, returned home last Wednesday. She was accompanied by Miss Stella Nadeba, of Calgary, who will spend the rest of the vacation here with Mr. and Mrs. J. Martinek.

Mr. Dave Hutchinson, of Calgary, was in town on a surveying job.

Encroute to Banff, Jasper and other Alberta points, Mr. and Mrs. W. H. Stobbs and family, of Mission, BC, visited in town for a few days last week. They were guests of Mr. and Mrs. W. H. Moser.

Miss Lorraine Masiene was hostess to a number of friends on Sunday afternoon in honor of her thirtieth birthday.

Miss Mae Dudley is spending a few days this week in Coleman, guest of Mr. and Mrs. C. Coover.

Mr. and Mrs. Fitt, of Nova Scotia, are guests here of Mr. and Mrs. D. A. Grant.

The death of John Andreashuk, 39, occurred in the Bellevue hospital on Tuesday morning. He was taken sick while on a fishing trip at North Fork, and was rushed to the hospital where he died shortly after admittance. He is survived by his mother, Mrs. Kuneskay, of Hillcrest, three sisters, Dora, of Blairstown, Kate, of Nelson, and Anne, of Hillcrest, all married, and three brothers, Jake, of Brooks, Dick, of Castlegar and Danny, of Nelson. His father was killed in the Hillcrest explosion of 1914.

A vocational school for children from 6 to 14 is being held in the Hillcrest United church. Miss Bartling, from Lethbridge, is supervising.

Mr. and Mrs. G. E. Cruckshank motored to Calgary on Tuesday, accompanied by their son and daughter-in-law, Mr. and Mrs. R. Cruckshank and grandsons Donald and David, who are returning to their home in Olds.

Mr. Porter, of Medicine Hat, is visiting at the home of Mr. and Mrs. C. Sevill for two weeks.

Mrs. Gardner left on Sunday morning for Winnipeg to spend a vacation with relatives.

Mrs. Jack Norton is visiting in Winnipeg for a few days.

Mr. and Mrs. R. Leicher, Mr. and Mrs. Percy Latsher and Herb Letcher returned on Monday from a motor trip over the Banff Windermere.

Douglas Hyslop who has been working at Knight's mill near Michealton has the misfortune to have his right hand badly cut, necessitating hospitalization for a week. Fortunately amputation was not necessary but he will be unable to use his hand for several weeks.

Mrs. Bain Jr., was hostess to a number of youngsters on Saturday, when she entertained at a birthday party for her daughter Rosemary, on her third birthday.

Mr. and Mrs. J. Martinck and family motored to Pincher Creek last Saturday.

Mrs. Audrey Thomas, of Fishburn is visiting relatives in Hillcrest this week.

Mr. and Mrs. A. Chryslee and daughter have returned to their home in Edmonton after a week's visit with Mrs. Chryslee's parents, Mr. and Mrs. R. Crichton.

Mr. and Mrs. Bob Shaw, of Corbin BC, were guests last week of Mr. and Mrs. Ken Thornton.

Mr. and Mrs. Kirkland, of Saskatoon, are the guests this week of Mr. and Mrs. George Thornton.

COWLEY HAPPENINGS

Mrs. Summerford and baby, of lethbridge, are guests of Mr. and Mrs. M. A. Perceval this week.

F. Burwell has returned from Pincher Creek where he was a patient in St. Vincent's hospital for a few days. He is looking fit as a fiddle.

Mrs. John McQuarie and her two children, of Coleman, are visiting at the parental home of Mr. and Mrs. George Dryer.

John Perceval has recently returned from Edmonton where he attended the six weeks term of summer school at the University of Alberta. We understand he will teach near Noblenford for the ensuing term of school.

Mr. and Mrs. H. M. Welsh, who have been employed with Wilfred Fortier for the past several months, left on Thursday for Innisfail.

A son was born to Mr. and Mrs. J. E. Clinton on August 12th this being their fourth child.

Mr. and Mrs. Johnnie Bare celebrated their golden wedding on August 15th, when sixty guests gathered at their home to do them honor.

Wiltire Fortier, of Yakima, Washington, paid a few days visit this week to his brother and sister-in-law, Mr. and Mrs. Wilfred Fortier.

"V"

BIELLI-BERTOIA

A marriage of interest to Pass residents took place at Sacred Heart Catholic church, Roseland, BC, on Wednesday, August 14, when Msgr. A. K. McIntyre heard the marriage vows of Lola Mary, daughter of Mrs. Luigi Bertola and the late Mr. Bertola, and Joseph Louis, son of Mr. and Mrs. R. Bielli, all of Roseland. The Bielli family resided in Blairstown prior to making their home in the BC city.

Attendants were Miss Amelia Bielli, sister of the groom, maid of honor; Miss Patricia Bryan, bridesmaid, and Michael Molina, of Trail, cousin of the groom, as best man. The bride was given in marriage by her brother, Leo Bertola, while Wallace Bertola acted as usher.

Following the ceremony a reception was held at the Allan hotel, operated by the Bellies, when some 125 guests were present.

The young couple left on a honeymoon trip through the States and to Calgary and other Alberta points. On their return they will make their home in Roseland.

Out of town guests included Mr. and Mrs. Peter Sartoris and daughter Mary and Mr. and Mrs. Joe Rossi and son Charles, of Blairstown; Mr. and Mrs. A. Montalbetti and Ernest Montalbetti, of Coleman.

"V"

FOORTY CAR DRIVERS' LICENSES SUSPENDED

Forty drivers' licenses have been suspended in Alberta this year for various causes, according to information received from the provincial secretary's department by the Alberta Motor Association.

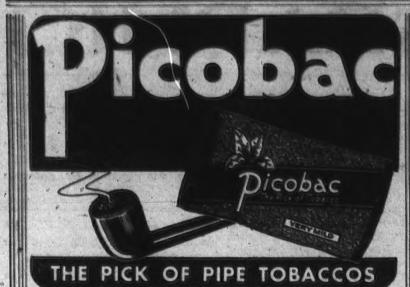

During the whole of last year, the number suspended was 65.

Provincial legislation provides that magistrates shall have power to suspend driver's licenses when a conviction has been made for violation of the law and such a course appears desirable in the circumstances.

In many of the cases, the drivers had been found guilty of reckless driving or similar infractions of the statute.

The AMA has emphasized the need of observing safe driving principles and create a greater interest in safety education.

YOU GET THE SAME delicious Coffee blend whether you buy Maxwell House in the Super-Vacuum Tin (Drip or Regular Grind) or the Glassine-Lined Bag (All Purpose Grind).

Sixty Years Of Progress

THIS YEAR MARKS THE SIXTIETH ANNIVERSARY of the founding of the Experimental Farm system in Canada, and in observation of this milestone tributes have come from all parts of the country to the work which has been carried on in the interests of agriculture for over half a century. When the system was inaugurated in 1886, the position of Canadian agriculture was far from prosperous. The great wheat-growing areas of the West had yet been developed, six thousand acres in the Red River Valley being the only wheat crop sown in the West at that time. In the whole of Canada only 45 million acres were then under cultivation, as compared with 174 million acres today. Exports of wheat in 1886 amounted to 3,500,000 bushels, nearly all of that being from Ontario; while we now export nearly 300,000,000 bushels, mostly from the Prairie Provinces.

Brilliant Work Of Dr. Saunders

Saunders's brilliant work in plant breeding, which led to the discovery of Marquis and other varieties of wheat suitable for the climate of Western Canada, is well known. As a direct result of his studies the Canadian West became one of the great wheat-producing areas of the world, and Canadian agriculture as a whole advanced rapidly. Dr. Saunders's work was not concerned entirely with wheat, but extended to problems connected with the growing of trees, shrubs, fruits and vegetables in regions where the climate was not considered favourable for their cultivation. He had much success in introducing varieties of plants which could be successfully grown on the Prairies and in northern regions.

Tradition Has Been Upheld

The tradition established by Dr. Saunders has been carried on, and the Dominion Experimental Farms continue to make a valuable contribution to the progress of agriculture in all parts of the country. The importance of scientific knowledge in dealing with farm problems has been proven many times, and the Experimental farms help to keep before the farmers the most up-to-date knowledge on methods of dealing with plant and animal diseases, new breeds of plants, the latest developments in agricultural engineering, and countless other matters related to farm work. Plans are now under way to further expand the work of the Experimental Farms throughout the Prairie Provinces, in connection with soil drifting, the use of new varieties of crops and the use of the latest cultural methods. This service, inaugurated sixty years ago, has indeed been of great value both to agriculture and to the country as a whole, for, in the words of Dr. E. S. Archibald, superintendent of the Dominion Experimental Farms: "Without a prosperous agriculture there can be no prosperous urban community."

Medical Courses

Many Young People in B.C. Would Study Medicine

There are at present about 122 young people in British Columbia ready and eager to enter upon medical courses. If a medical faculty is not started at Point Grey within a reasonable period, most of these young people—many of them returning servicemen—will be denied the privilege of studying medicine.

They cannot be accommodated in other colleges because there is no room for them there.

We have depended for too long upon the schools on the prairies and in the East and in the United States to educate our doctors. Now we are thrown upon our own resources.

Outcome Of War

British Athletes Are Trained By German Coaches

Strange outcome of the war in this respect. The German athletic energy may be the winning of Olympic medals by British athletes trained in Berlin by German coaches and physical culture experts.

Within the magnificence of Berlin's Olympic Stadium British occupation troops are running, jumping and hurling weights daily in an effort to keep fit and to cheat monotony. They have not only the finest track in the world on which to perform, but German coaches and physical culture experts have been employed. And whatever your opinion of Germans it is a fact that nowhere can be found more efficient or more skillful athletic coaches.—London Express.

Circus Folk

Elephants Are Used For Plowing In Britain

London.—The war was no respecter of persons—even circus folk. Reconstituting its staff for its first season since 1940, the big Bertram Mills circus found that the clowns and performers were in war factories or driving trucks; its trained horses were driving farm vehicles and—crowning blow—its elephants were being used for plowing. The circus was given enough priorities for an austerity season.

INVISIBLE IN ACTION

Although eight inches long, the chameleon's tongue is invisible to the eye. It is used to catch insects with unerring aim and whiskers the hapless insect into the owner's mouth with lightning-like rapidity.

WATER FOR CATTLE

Average Cow Needs Ten To Fifteen Gallons of Water Per Day

Veterinary authorities state that for the highest production of milk the importance of a continuous supply of drinking water for the cows cannot be over-estimated. Experiments in Canada and the United States have shown that milk production was higher from cattle with water available to them throughout the day than from cattle which had access to water, only once or twice a day.

It is estimated that the average cow needs from 10 to 15 gallons of water per day. High producing cattle, such as those producing, say, 10 gallons of milk per day, may consume up to 30 gallons of water per day. A cow fed such as her shaft and concentrated ration, fed the cows would take 10 to 15 gallons of water as such. However, where the cows are on pasture and quantities up to 180 pounds are known to be taken, water would be required in amounts of one hundred and thirty pounds of pasture would probably contain "about nine or ten gallons of water. If silage were fed, 50 pounds of that material would probably contain 3½ gallons of water.

HOME FROM GERMANY

A few weeks' visit" that stretched into seven years is the experience of Mrs. Jürgens of Kitchener, Ont.

In 1939 Mrs. Jürgens went to Germany to attend her daughter's funeral. Outbreak of war caught her in Hamburg, and she spent the entire war there. Her husband had been buried on account of existence and her own house hit. Glad to be home again after the privations of wartime Europe, Mrs. Jürgens was happy: "Canada seems the good to be true." She declares that Canadian soldiers have proved the most popular occupation troops in Germany.

More Population

In Needed By Canada To Develop The Country

Increased immigration is necessary because it is obvious that 12,000,000 people cannot continue indefinitely to own, develop and defend a country like ours as such as Canada.

Increased immigration means also that the domestic market is enlarged and that is important in view of the post-war improvements being made industrially and agriculturally in other countries.

The 4,000 Polish farm workers now being admitted will be the first contingent of a long-term movement needed to provide the population Canada must have to derive the full benefit from her size, position and natural wealth.

Price Control And Rationing Information

Q.—What are the numbers of the meat and butter coupons in ration book No. 5 to be declared invalid on August 31st?

A.—Meat coupons M-40 to M-50 and butter coupons R-10 to R-17 become invalid on August 31st. These commodities after August 31st, "Beaver" and "Buffalo" coupons, issued to members of the armed forces and other temporary ration card holders, will not be affected by the change and all sugar coupons will remain valid until further notice.

Q.—I heard the sugar ration was to be increased for the balance of this year. By how much is the sugar ration to be increased?

A.—I am a farmer's wife and make butter for our own use only. Is it necessary for me to make a report to the Local Ration Board on the amount of butter used?

A.—All dairy butter producers (other than authorized butter reporters) must register with their respective Local Ration Boards even if the butter they produce is used in their own households and is not sold.

Q.—What coupons will be used for the purchase of meat when the "M" coupon in ration book No. 5 becomes valid on September 19th.

A.—The spare "Q" coupons in book five will be declared valid for the purchase of meat after August 22nd. These "Q" coupons will be used until the coupons in ration book No. 6 become valid on September 19th.

Please send your questions, along with your request for the completed "Consumer's News" or the Blue Book in which you keep track of your ceiling prices, mentioning the name of this paper to the nearest Wartime Prices and Trade Board office in your province.

Foreign Trawlers

Are Operating in Fishing Areas Off The Atlantic Coast

HALIFAX.—The proposal that fishing in Atlantic waters off the East Coast be regulated by an international body came from Capt. Ben MacKenzie, president of the Canadian Fishermen's Union.

Capt. MacKenzie said his union will ask Atlantic Fishermen's Union headquarters in Boston to cooperate in an effort to have an international body appointed to regulate fishing in the North Sea and Newfoundland waters.

The union chief commented on a Boston dispatch which said the French Government was planning construction of 32 new trawlers to operate on the Banks. He said this would add to the now crowded Banks fishing grounds.

Capt. MacKenzie said his union was collecting depositions for the Federal Fisheries Department from fishing vessel masters and crews on operation of foreign trawlers in fishing areas off the coast of Scotland. Men recently complained they were being forced to abandon the rich Quero bank because of damage to their gear by foreign vessels.

"There must be some regulations, national or international," he said. "If our fish supplies are not to be seriously depleted and our fishing industry wrecked."

Aviation Advances

Canada Is Keeping Pace With The Rapid Development

The efficiency with which Canada is keeping pace with the wartime production of aircraft and bombers in specialized fields will be matched by the new skills learned by her engineers and workmen.

The "North Star", the 40-passenger all-stop capable of flying 3,500 miles, is now in the making. Flying speed of 325 miles an hour and an altitude limit of 28,000 feet, may be taken as a sample of things to come.

To the accepted abilities of Canadians to operate in the air have been added the demonstrated capacities of the Dominion's aircraft industry to make the up-to-date planes in which they will fly. It is encouraging to see such evidence of this country's determination to keep pace with the rapid advances of the air age, both in design, size and in flying them.—Victoria Times.

GIVEN FINAL READING

OTTAWA.—The commons gave third and final reading to a bill amending the criminal code to change the method of selecting juries in Saskatchewan and Alberta. The bill will permit Saskatchewan to return to the practice of a 12-man jury and permit Alberta to retain six-man juries with an improved system of challenges.

Coming Of Age

Princess Elizabeth Will Celebrate 21st Birthday In Cape Town

Buckingham Palace announced that the King has approved plans for Princess Elizabeth to celebrate her 21st birthday at Government House in Cape Town, South Africa, where the heiress presumptive to the British throne comes of age next April 21.

The princess, with her sister Margaret, is to accompany the King and Queen to South Africa on a royal tour starting February 17. The birthday celebration will take place shortly before the royal family returns to Britain.

GEMS OF THOUGHT

BUILDING

Let not him who is houseless pull down the house of another, but let him work diligently and build one for himself.—Abraham Lincoln:

We build our ideals and they in turn build us.—Le Conte.

Happy is the palace whose affection is founded upon virtue, walled with riches, glazed with beauty, and roofed with honour.—Francis Quarles.

When we use some great occasion with probably a general idea what we already are, and what we are will be the result of previous years of self-discipline.—H. P. Liddon.

We should strive to reach the height where God is revealed; and the corner-stone of all spiritual building is purity.—Mary Baker Eddy.

Let us labor for the larger comprehension of truth, and then we shall have the education of our soul, which shall make the history of mankind a series of ascending developments.—Horace Mann.

Answer To Last Week's Puzzle

Lawless Bands Strike Terror In Polish Villages

RZESZOW, Poland. — The torch of terror burns still among the Polish villages along the San river, deep in southeastern Poland not far from the Russian frontier.

Many homes are burned and Polish settlers string up trees by lawless bands officially described as commandos or units of Ukrainian Nationalists, with a record of one-time Nazi S.S. officers.

These cutlasses long have terrorized this section of Poland, but their activities became more pronounced after the government started moving Ukrainians out of Polish territory to Soviet Russia under a repatriation agreement.

Some sources attribute the Ukrainian attacks to resentment at being forced out of their villages to make way for Polish settlers. Others say the bandit bands operating in the province of Rzeszow were organized to level against Germans for food-stuffs. In the farms don't grow, villages are burned and men and women carried off to forest hideouts.

At Terka, bands sweeping in at night from hideouts hanged five Poles and a Ukrainian who was friendly to Poland.

Polish newspapers reported that bands numbering several hundred attacked the village of Wolkowice July 14 and 15 and terrorized the population. One soldier, 30 civilians and five bandits were killed.

Troops hunting down outlawed bands recently killed 100 bandits within a week.

SUGAR BEETS

Announce That Factory Will Be Built At Taber

LETHBRIDGE— Philip T. Rogers of Vancouver and T. George Wood of Hay River, N.W.T., announced yesterday a \$2,500,000 sugar beet factory will be built at Taber, Alta., by Canadian Sugar Factories, Limited, a subsidiary of the British Columbia Sugar Refining Company, Limited, of Vancouver.

Contracts for factory engineering have been let to the Stevens Rogers Manufacturing Company of Denver, Colo., and for building construction to the Dominion Construction Company, of Vancouver.

RECRUITS NEEDED

Royal Canadian Mounted Police Force

To Be Increased

OTTAWA.— Strength of the Royal Canadian Mounted Police, now 2,654, will be increased by 600 as proper material becomes available. Justice Minister St. Laurent said in the commons:

Less than 200 of the new men needed had so far been engaged.

Replying to questions as to whether the increase in the force was aimed to meet counter-espionage needs, Mr. St. Laurent said the whole force was available for any work required of it.

FOUND OBSOLETE

Plane Of Future Too Speedy For Present Type Bombs

WASHINGTON.— Second Great War bombs have been found obsolete for supersonic planes of the future and missiles of "radically new design" are being developed, the United States war department has disclosed.

It was said that conventional type bombs are inaccurate at speeds equaling the 764-mile-an-hour velocity of sound.

FLOATING POLLING BOOTH

SAIN JOHN'S, Nfld.— Arctic ice was still too thick yesterday to allow the calling for a Labrador representative on Newfoundland's national convention. The floating polling booth, the steamship Marquette, reported it was unable to move north towards the tip of northern Labrador because of ice to collect the votes of the territory's 2,500 registered electors.

HEAVY TRAFFIC

SASKATOON.— With an increase of 14 per cent. in the number of passengers carried by the street railway since 1945 over 1940, the Saskatchewan municipal railway has shown a greater increase in passengers carried than has any other city in Canada. G. D. Archibald, street railway superintendent reported.

NORTHWEST AIR COMMAND.

OTTAWA.— Air Minister Gibson announced appointment of Air Commodore R. C. Gordon, C.B.E., of Ottawa and Harris, Sask., as air officer commanding north west air command, succeeding Air Vice Marshal T. A. Lawrence, C.B.E., of Crewe, Ont., who will retire from the R.C.A.F.

INVESTIGATE BLACK MARKET

LONDON.— Officers from Scotland Yard, Britain's famed criminal investigation department, will travel to Germany to help in the investigation of alleged black market activities involving German and British nationals, it was learned.

WANTS VOTES FOR INDIANS—
O. M. Martin, Toronto Indian and York County magistrate, urged that Indians be given the right to vote in Dominion and provincial elections without loss of their present privileges when he appeared before the parliamentary committee for Indian affairs at Ottawa.

Statistics Show More People Are Working

OTTAWA.— The Dominion bureau of statistics estimated Canada's civilian labor force—persons 14 years or over at 4,828,000 on June 1, an increase of 366,000 compared with Nov. 17, 1945.

Corresponding to this increase in potential manpower was an increase of 336,000 in those actually working and a reduction of 46,000 in the number of unemployed.

The estimates were based on a sampling survey, the third the bureau has conducted in this field at three-month intervals. Representatives of 25,000 households in 100 different areas scattered across Canada were interviewed to provide material for the estimate.

The total civilian labor force at June 1 was estimated to comprise 3,732,000 men and 1,096,000 women. By regions it was divided: Maritimes, 450,000; Quebec, 1,333,000; Ontario, 1,651,000; prairies, 622,000 and British Columbia, 387,000.

The number actually employed at June 1 was estimated at 4,702,000, as against 4,312,000 at Feb. 23, 1946, and 4,300,000 on Nov. 17, 1945.

The bureau estimated there were 1,274,000 workers in agriculture at June 1, compared with 1,083,000 in February and 1,056,000 in November. The June figures included 1,074,000 men and 200,000 women. They were made up of 157,000 paid employees, 630,000 working on their own farms without paid employees; 66,000 employers with their own farm and 421,000 unpaid family workers.

In industries other than agriculture, the June total was put at 3,428,000, an increase of 118,000 from November.

The bureau also enquired into the marital status of women holding jobs. It was found that of the 1,078,000 women working on June 1, 677,000 were single, 512,000 were married and 89,000 were widowed, divorced or permanently separated.

The bureau also made an estimate of the distribution of non-workers which were not included in the labor force figures. It found that of 3,057,000 non-workers on June 1, 283,000 were unemployed, 2,712,000 were keeping house, 579,000 were attending school and 292,000 had retired or were voluntarily idle.

TO BREAK LAND

Chicago Engineer Will Attempt Winter Plowing in Face of Big Disaster

EDMONTON.— Winter plowing will be attempted in an effort to make 70,000 acres of land ready for spring seeding by veterans in the Peace River district, W. H. Rodenbeck, chief engineer for the Yukon Corporation, told the Star.

The engineering firm has contracted to clear and break 250,000 acres of virgin soil in the Peace River district for re-establishment of veterans. They have taken over the Alberta government contract from Hartman Brothers, Seattle.

Mr. Rodenbeck said that 99 modern tractors and land clearing machines may already be on their way to the Peace River district from Chicago and Texas. Work on the land will begin immediately the equipment arrives, he said.

ALL SUPPLIES LOST

NORTHERN OUTPOST OF HUDSON'S BAY COMPANY DESTROYED BY FIRE

CORNWALL, Man.— The Hudson's Bay company's outpost at Lake Harbor, Northwest Territories, has been destroyed by fire, word reaching here said. Lake Harbor is on the southern side of Baffin Land and about midway along the coast.

An airplane left there a short time ago by the steamer Nascope were a total loss, the report said. Additional supplies will be sent from here on the Nascope's return trip.

TESTING CABLE

LONDON.— A new type of underground telephone cable for use between Britain and the continent is being tested experimentally between Portsmouth and Ryde in the Isle of Wight.

A spokesman left there a short time ago by the steamer Nascope were a total loss, the report said. Additional supplies will be sent from here on the Nascope's return trip.

CANADIAN APPLES

MILLIONS OF BUSHELS WILL BE EXPORTED TO UNITED STATES

OTTAWA.— Negotiations have been concluded for the export of 1,000,000 bushels of packed apples and 2,000,000 bushels of processing apples to the United States, the Dominion agriculture department announced. About 250,000 bushels of either grade may be shipped at the option of the Canadian industry.

Canada's 1946 crop was estimated at 18,000,000 bushels, equally divided between eastern and western Canada. The department expected the major portion of the crop would be between 2,500,000 and 3,000,000 for processing with at least 3,000,000 bushels likely to be shipped to the United Kingdom.

SUPPORTS BYRNES' ATTACK—
Strong backing for charges made by U.S. Secretary of State James F. Byrnes that Nazis are attempting to dictate policy toward the Far East came from Tom Connally, shown here, chairman of the U.S. Senate foreign relations committee.

FAMOUS AUTHOR

H. G. Wells Dies In England After Long Illness

LONDON.— H. G. Wells, 79, famed English author of scientific romances and political writings, died yesterday.

Mr. Wells' secretary told a reporter that the author had died peacefully at 1 p.m. He had been in failing health for a "considerable time".

Mr. Wells' fame grew with his books of science fiction and history—both of which he turned into the "best-seller" class. Along with 90-year-old George Bernard Shaw and the late Rudyard Kipling, he was hailed on both sides of the Atlantic as a member of the "Big Three" of modern English literature.

DATE NOT GIVEN

BARKING, Essex, England.— J. P. Mallalieu, parliamentary private secretary to the food minister, said Britain's bread rationing would end "pretty shortly". He did not amplify his remark.

Ottawa Extends Tax Exemption For The Co-Ops

OTTAWA.— Provisions of the co-operative taxation legislation which made bonds issued by co-operatives tax-exempt on or after Jan. 1, 1947, exempt from taxation for three years, were extended by Acting Finance Minister Douglas Abbott in the house, to include new co-operatives that acquire assets for existing ones.

When the legislation was under consideration earlier this session the acting finance minister had indicated he would give sympathetic consideration to the suggestion that the tax exemption provision be made to apply to co-operatives that had acquired existing businesses. He announced that the government had decided to meet the suggestion.

Mr. Hon. J. L. Ilsley, minister of finance, when he brought down his budget in June last said that was his intention to restrict the three-year tax exemption provision to newly formed co-operatives which had not acquired already existing businesses. That stipulation had been proposed by Mr. Abbott that the provision might be utilized to operate what was really a private business under the cloak of a co-operative organization, explained Mr. Abbott.

"But after considering the matter it was felt that protection could be afforded in the law to guard against a private business being operated under the guise of a co-operative organization," said Mr. Abbott.

T. J. Bentley (C.C.F., Swift Current) moved that the date line be changed by the acting finance minister. Further he urged that the date line be changed so that the three-year tax exemption would apply not only to co-operatives started on or after Jan. 1, 1947, but also to co-operatives launched in the past two or three years.

He referred particularly to the Swift Current Co-operative Horse Marketing Association. That organization had been buying horses on the prairie and shipping them to market.

The Swift Current plant had been financed and equipped under difficult circumstances. It had provided long-term employment for over 100 persons, said Mr. Bentley.

Slow Progress At The Paris Peace Parley

NEW YORK.— Some officials were certain that the once-postponed meeting of the United Nations' general assembly would be delayed again because of the lagging progress of the Paris peace conference.

They were convinced that on Sept. 23—the present starting date for the assembly meeting at Flushing Meadows—the foreign secretaries and other top diplomatic personnel of the United Nations still would be occupied with peace conference matters.

There was a slight possibility that the assembly would open on schedule and coast along with minor issues, such as the UN budget and various administrative problems, until the major delegations arrived from Paris.

It was doubted, however, that this solution would gain much support. UN Secretary-General Trygve Lie, back from a five-week trip to Europe, was expected to produce some official information on the assembly plans at a news conference.

A member of one of the Big Five nations said he believed the assembly meeting would be deferred until as late as November unless the United Nations want to begin the meeting without the Big Five foreign ministers and their advisers.

OPIUM DEN

Police Raid Building In Toronto's Chinatown

TORONTO.— Like a page out of the Fu Manchu stories of the Orient, police officers burst into a Toronto police officer described the scene in a building in Toronto's Chinatown where a special narcotics squad arrested seven Chinese on a charge of illegal possession of opium.

A few minutes before they burst into the room they termed an illicit opium den, they had shleddhammered their way into a Gerrard street rooming house and seized opium said to be worth \$30,000 at black market prices. Authorities said it was the biggest opium seizure in Canada in 10 years. One man was arrested in that raid.

The late Sax Rohmer, author of the fantastic Fu Manchu stories of the Orient, probably would have felt at home amid the exotic surroundings had he been with police who hammered their way through two steel-reinforced doors to enter the richly-furnished Oriental-style bedrooms above a club on Gerrard street.

The officers said they found seven Chinese reclining on cots or on brightly-colored rugs on the floor or seated on wooden chairs. Over the interior hung a black haze of smoke, and police said three men were smoking opium.

Police said they seized an opium pipe and a lamp used to heat opium. In the bedrooms, they stated, they found a quantity of prepared opium.

BRITAIN'S CUSTOMERS

CANBERRA.— Australia was Britain's third best customer during the first quarter of 1946 with a total of approximately \$25,000,000. South Africa which bought British goods valued at more than \$60,000,000 was first and India which bought \$50,000,000 worth was second.

BRITAIN BLOCKADES PALESTINE TO STOP ILLEGAL JEWISH IMMIGRANTS—To stop further arrivals of illegal Jewish immigrants in the Holy Land, where some Arabs have declared they will fight if the flow continued, Britain has blockaded the Palestine coastline. These members of the camel corps of Trans-Jordan are typical Arab fighters.

Under the proposal to split Palestine into provinces, the Arabs would have one area. Ruler of the British-protected Arab kingdom is Ibn Al Hussein.

DO IT "THROUGH THE CHARTERED BANKS"

Announcing in Parliament that the Canadian copper colored "nickels" are being withdrawn from circulation and expressing the belief that "the movement will be completed within the near future," the Finance Minister added that "the withdrawal was being carried out through the chartered banks."

We see so many statements of that kind—that this and that and the other thing is being done "through the chartered banks"—that we pay little or no attention to them any more.

But we should stop and think about it.

There are those in this country, no large number, perhaps, who count that day lost that does not provide them with a chance to criticize "the banks." To hear that kind of talk, you would imagine that "the banks" do as they please with other people's money and their own—that they carry on without let or hindrance, making their own laws and regulations, and generally amassing fortunes for their executives and directors.

The fact is, of course, that banking in this Dominion is hedged about by the most rigid restrictions and controls—not in these times of "control" alone, but always, in season and out of season, in peace as in war. The banking laws of Canada are the most exacting of all laws governing Canadian business activities. All banking is done under the eye and supervision of government. And no banking system in the world is sounder from the public viewpoint.

The banks of Canada did an immense job in wartime and are doing an immense job in this "transition" period. The fact that the public hears little about it is an indication of how thoroughly it is being done without grounds for serious complaint.

How much free or near-free service the chartered banks of Canada give governments and the public we do not know, but it must be very extensive, indeed. (Look at the line-ups at the bank window each week or month of people cashing government cheques. It is just one example of the service the banks are giving the public—with out much "percentage" in it for the banks).

This is not a "defence" of the banks or an "apology" for them; it is merely an attempt to give the banks of this country some small measure of the credit that is due them. —Editorial, Halifax Herald.

"V."

**NORTHERN CUT-OFF TO SAVE
CAR MILEAGES**

If the proposed paved highway from the international boundary through to Dawson Creek, BC, takes the route from Edmonton by way of Whitecourt to Grande Prairie, a distance of 100 miles would be cut off the present circuitous route, according to Hon. W. A. Fallow, minister of public works.

The minister, who was a member of a delegation that made representations to the tourist committee of the Canadian senate as to the need of the paved tourist highway, expressed the opinion that the committee which would be called upon to make a decision would favor the Whitecourt route.

The unconstructed part of this road from Whitecourt to Grande Prairie already has been surveyed.

The question of the province and dominion sharing the expense of the proposed highway now is under consideration at Ottawa.

Officials of the Alberta Motor Association, which is advocating the need of improving Alberta's highway system and bringing it up to a standard which will meet all traffic demands, including tourists, have expressed keen interest in proposals made at Ottawa. The whole situation is expected to be discussed when AMA directors meet.

"V"

GAME REGULATIONS

The Honorable J. Allison Glen, minister of mines and resources, Ottawa, has just issued the regulations regarding Migratory Birds for the current year.

A summary of the regulations as they apply to Alberta follows:

OPEN SEASONS

Both Dates Inclusive

WILSON'S SNIPE

Throughout the Province from one-half hour before sunrise September 14 to one-half hour after sunset November 9.

DUCKS, GEES, (other than Ross's Geese) RAILS, COOTS

In that part of Alberta lying north of the right bank of the Athabasca River going down stream to its intersection with the north boundary of Township '72 and north of the north boundary of Township '72 from Athabasca River to its intersection with the interprovincial boundary between Alberta and Saskatchewan: From one-half hour before sunrise September 7 to one-half hour after sunset November 21.

Through the remainder of the Province of Alberta: From one-half hour before sunrise September 14 to one-half hour after sunset November 28.

There is close season throughout the year on Elder Ducks, Wood Ducks, Swans, Ross's Geese, all show birds except Wilson's Snipe, and all migratory non-game and insectivorous birds.

Migratory game birds killed during the open season may be possessed in Alberta at any time, but the onus of proof that birds possessed were lawfully killed shall be on the person having the birds in possession.

BAG LIMITS

In any day: Ducks, 15; of which not more than 8 shall be species other than Mallard, Geese, 5; Coots and Rail, 25; Wilson's Snipe, 5.

In any open season: Ducks, 150; Geese, 25; Rail and Coots, 100; Wilson's Snipe, 100.

No one shall have in his possession at any time more than 60 Ducks.

GUNS, APPLIANCES AND HUNTING METHODS

FORBIDDEN—The use of an automatic (auto-loading) gun, or swivel or machine gun, or battery, or rifle, or shotgun loaded with a single bullet, or any gun larger than number 10 gauge, or any weapon other than a gun or a bow and arrow; and the use of live birds as decoys, or of any airplane, power-boat, sail boat, fire-night-light, and shooting from any motor or wheeled vehicle, or a vehicle to which a draught animal is attached. The hunting of migratory game birds by the use or aid of baiting with grain or other artificial food is prohibited.

The shooting of migratory game birds earlier than one-half hour before sunrise or later than one-half hour after sunset is prohibited.

The penalty for violation of the migratory bird laws is a fine of not more than three hundred dollars and not less than ten dollars, or imprisonment for a term not exceeding six months, or both fine and imprisonment.

Being in the nature of a reminder of how the Royal Bank can help to make your holiday happy and carefree.

1. Make sure your valuables are safely tucked away in your Safe Deposit Box. Or store them in our vaults for safe-keeping. The cost is trifling. Ask at any branch.

2. Change your reserve cash into Traveller's Cheques... the safe worry-free way to carry travel funds. As good as money anywhere. If you lose them, you're not out a cent.

3. Should you run short of cash during your trip call on the nearest Royal Bank branch. The local manager is your direct line of communication back to your own home branch.

4. Arrange to have your salary or other income credited to your account in your absence. Clean up unpaid bills with Cheques against your Royal Bank account or mail Royal Bank Money Orders.

5. Should you wish to combine business with pleasure you will find the local Royal Bank Manager in any district a mine of information on local business conditions.

United States Tourists are cordially invited to use our branches for cashing Traveller's Cheques, negotiating Letters of Credit or for any banking service.

THE ROYAL BANK OF CANADA

BLAIRMORE BRANCH - M. G. SMITH, Manager
BELLEVUE BRANCH - L. B. LONG, Manager

AN EXTRA cheque every second

You may receive Government cheques. You can cash them without charge at any branch of any chartered bank in Canada. In one year some thirty-six million cheques were issued for Family Allowances, the Armed Services, their dependents, Pensioners, employees of Crown Companies and the like. More than one for every second of the day and night!

Can you imagine the expense to taxpayers if this money had to be distributed in cash through thousands of special pay offices... and the inconvenience of having to go to such offices to get your money?

Taken in Stride.

Your bank performed many such public services throughout the war and is continuing to do so. It is taking these additional tasks in stride... competent to play its part in meeting Canada's needs of the future.

A MESSAGE FOR THOSE WHO NEED TRAINED WORKERS

**IN 1942—he helped launch
the first 1000 BOMBER RAID**

Canadians will not soon forget the news that more than a thousand Canadian airmen were in the skies over Cologne the night Bomber Command in Britain launched its first thousand bomber raid.

But for every Canadian in the skies there were ten on the ground. There were the aero-engine mechanics, the air-frame mechanics, draughtsmen, clerks, engineers, and all the others whose duties made thousand bomber raids a possibility. They were skilled men, each doing a key job and each demonstrating initiative and the ability to accept responsibility—qualities Canadian industries need today.

Today

**He offers THESE SKILLS
to industry . . .**

Thousands of Canada's airmen have been absorbed in the Dominion's industries and businesses, but many more are seeking places where their skills may be used to the best advantage. You will find these veterans of Canada's armed forces, men of loyalty and unflagging determination. They had qualities which made Canada's armed services the finest in the world. Whether tradesmen or not, those qualities may be used to advantage in Canada's industrial life.

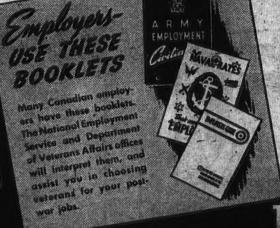

If you have openings or can make an opening, list your positions with the National Employment Service. Investigate also the training-on-the-job provisions of Canada's rehabilitation programme under which the Dominion Government may add to the income which veterans receive while training. You can secure complete details through the nearest office of the Department of Veterans Affairs, the National Employment Service or Canadian Vocational Training.

Men and women for the services were carefully selected on enlistment. Service experience, training, discipline, the lessons of organization add much to their value. Whether tradesman or not, the veteran makes the ideal employee. Canada offers none better.

**Service Skills Make GOOD
Civilian Workers!**

PUBLISHED IN THE INTERESTS OF VETERANS BY

THE GOVERNMENT OF CANADA

Many Canadian employers have these booklets. The National Employment Service and Department of Veterans Affairs offices will interpret them, and assist you in choosing veterans for your post-war jobs.

WORLD HAPPENINGS BRIEFLY TOLD

Britain's oldest serving Naval officer—Cdr. Henry Mohay, O.B.E.—has been "demobbed" at 72.

Gen. Eisenhower said the outstanding leaders of the Second Great War were Franklin Delano Roosevelt and Winston Churchill.

British museum has offered to lend a mine detector to help in a hunt for buried church plate at Much Wenlock, Eng.

Canadian-built mixed-traffic locomotives now are operating on the Belgian national railways, first of 300 ordered from North America.

William Young, 84-year-old retired London shipping agent, said after his first flight—a 12,000 mile trip from Sydney: "I enjoyed it very much."

A chime of bells is to be hung in the regimental chapel at Wareley, Essex, as a memorial to officers and men of the Essex regiment killed in the war.

Hill's personal standard, the silk ensign he boasted would fly over Buckingham Palace, was on view at the "Germany Under Control" exhibition at London.

A conveyor belt to unload cargo from airplanes in flight, designed to aid airmen in parachuting supplies to the ground in a few seconds, has been developed for discharging mail and other cargo.

Buyers from all parts of the country paid \$46,800 (\$125,000) for 1,190 used army motorcycles at a three-day auction in Stafford, Eng. One had a bird's nest complete with eggs in the gas tank.

That Trip Overseas

Much Reduced Fares Are Expected When Books Return to Service

By Frank Swanson in Ottawa Citizen

Ocean travel today, which is not different from that experienced by thousands of Canadians during the war, soon will begin to return to pre-war standards. In dry docks and garages, boats, planes and ships along Britain's coastline, miniature armies of workmen are busily engaged in restoring war-battered troopers to their pre-war state of elegance and comfort. By late September or early October, the first is expected to start regular passenger service on North Atlantic services between New York and the battered ports of Europe.

Coincident with the reconversion of some of the world's most famous lines to their monogram coats of battle, grey planes are being drawn up for new and more modern ocean greyhounds. So far, most of these plans are still in the blueprint stage, but their ultimate development will foreshadow the shape of ocean travel of the future.

One company has plans for the construction of two liners of 30,000 tons each and with speeds of 22 knots, which would carry 1,000 tourists and passengers and 500 cabin passengers at a one-way fare from New York to Britain of \$40 for tourists and \$80 for cabin-class passengers with meals extra, or a choice of adding \$10 to the tourist fare and \$20 to the cabin fare for an all-inclusive rate.

One of the features of these two ships, which together would form what would be known as the Atlantic Line, would be cafeteria service for passengers, but not for the tourists, cost of the trip. The cafeteria proposal gives an indication of the streamlined terms along which ship owners are thinking these days in their efforts to cut down the pre-war trans-Atlantic fare which was the stumbling-block in bringing ocean travel down to the level of the pocket-book of Mr. and Mrs. Average Citizen.

Realizing the appeal post-war travel makes to the average owner of the home, timber and wool, shipping interests in this country are examining the feasibility of construction of new liners of the Queen class. Opinion is that no further ships of this size will be constructed in Canada, but for the Far East or North America in a hurry is almost certainly lost to the air lines. The problem, therefore, is to find another type of passenger to replace him, but at a much reduced fare.

* It will be late this year before the North Atlantic passenger services return to anything like pre-war normality. In the meantime, the person anxious to cross the Atlantic must travel by air. This is the mode, in an army atmosphere of austerity and of constant streams of orders issued practically around the clock over loudspeaker systems, but with the knowledge that he is lucky to be there all because of the large war. Late on both sides of the ocean which have piled up during the war years.

When travel does become easier toward the end of the year, and with the resumption of civilian air travel, the tourist rush to Britain, for which bookings are already beginning to pile up from all parts of Canada and the United States, the world should get some indication of what post-war ocean travel will be like in the face of air competition and an almost universal demand for a cheaper fare.

MANITOBA PIONEER CAMP, connected with the Inter-Varsity Christian Fellowship Association.

CATTLE KILLED BY LIGHTNING—At Acton, Ont., 21 registered Jersey cows were instantly killed by a bolt of lightning as they huddled beneath a tree on the Cloverdale dairy farm of A. J. Murray. The bark of the tree was slashed by the bolt. Fourteen cows were killed at Colbeck, Ont.

Medical Triumphs

Fenella Was Given Top Priority During The War

A few years may show that in the balance sheet of a world war, the cost in human lives has been numerically offset by the saving of life at the expense of many millions of war-wounded. Fenella, which spells life for millions statistically condemned to die from specific diseases, is hailed by medicine as the most decisive of these triumphs. Manufactured Fenella is the No. 1 priority in the war-making of the world in those countries which during wartime joined in developing this wonder drug—Britain, the United States, Canada and Australia.

A drug, for the first time in the history of medicine, was given top priority over all other forms of war production in Britain and the United States. The help of the industrial resources of the United States was sought and given on a large scale. Australia drew on its own eminence in the fact that one of the co-discoverers with Sir Alexander Fleming was Sir Howard (Walter) Florey, Australian-born and a graduate of Adelaide University (both were knighted for their work on penicillin). They were especially interested in Australia by the urgency of the needs of the New Guinea campaign and Australia's position, the nearest supply base for the Pacific war.

Those who are directing production of Fenella in the United States and Australia say the reserves now in hand and the plans for expansion are such that it should not be long before there is sufficient for general use for all purposes.

Fenella was made yesterday in a \$540,000 laboratory completed last year. In terms of penicillin manufacture, it is called mass production, but so great is the production problem of the drug, that a day's yield from the efforts of several hundred workers has to be distilled, fills a single large bottle before being reduced to powder form.

That is a problem that is occupying the attention of Australian, as well as overseas researchers, to simplify and reduce the cost of production for the benefit of the poor. Fenella, and the vast new field of therapeutics that has been opened to them—Ottawa Citizen.

HEALTH SIGNS

Crassness and incivility are infallible signs that the family doctor should be consulted about a child's health, declare health authorities at Ottawa. Department of National Health and Welfare officials list these signs of good health: Bright eyes, clear skin, good teeth, strong appetite, vibrant vitality and pleasing disposition. Parents they say, will see in these signs confirmation of medical opinion on a child's state of health.

Man utilizes only about 25 per cent of the oxygen inhaled in a breath of air.

British Air Liner

Will Make A Tour Of Canada, U.S. And Latin America.

BRISTOL, England.—A standard production model of the Bristol 170, first post-war British civil airliner to obtain an unrestricted certificate of airworthiness, soon will tour Canada, the United States and Latin America on a demonstration tour.

The plane, first flown last December, now is in quantity production at the Bristol Aeroplane Company plant in two models—the passenger Wayfarer and cargo-carrying freighter. Its manufacturers have said they believe it will prove suitable for use by the Canadian market since its twin-engines give it ability to operate from small airfields.

Wild Buffalo

The Last One In Oregon Has Been Shot

ASHWOOD, Ore.—The deer and the antelope still play in Oregon, but no longer will the buffalo roam this great Western state.

The last wild buffalo in Central Oregon was shot yesterday by members of the Sisters Rodeo Association at the request of Roland Gridley, rancher, who said the old animal had been damaging the Friday ranch near here.

The buffalo was brought into Oregon 15 years ago after originally being shot and transported. The buffalo was shot from horseback by George Walkfeld and Vernon Peck who used 30-30 rifles.

THIS CURIOUS WORLD

By William Ferguson

CUTTING ODDS

REG'LAR FELLERS—Anything to Please

Youth Training

Need For Discipline Is Greatly Needed

The future of the British Empire rests with the youths of today, who should be given every opportunity to develop their talents to the best advantage, says Field Marshal Viscount Montgomery, chief of the Imperial General Staff.

This preoccupation with youth is reflected in the manner in which the various wartime field commanders now responsible for directing his country's military strategy.

"What the state has no further use for my services I shall devote the remainder of my life to the work of training young men," he said recently "that they may become worthy citizens of our great and glorious Empire."

"The goal we should aim at is this: to train our boys to take their proper places in the community according to the position of each so that they will be able to take over from us older men and lead the country in peace."

"I mean by this that each boy must be given a chance to develop his own particular talents. He must be taught to be master of himself and captain of his soul. He must not be stifled for lack of opportunity. He must be given a chance to make good. Each boy must be an asset to the nation. In these days we should no longer be afraid."

To the boys themselves—and he has spoken at many school functions since becoming CIGS—the field marshal constantly emphasizes the need for discipline.

"We must be a nation only living on leadership and character," he said in one such address last June. "The youth of today have got to be taught discipline. The cause alone without the iron hand of discipline is no good. If you don't do that, you're right."

One way in which this spirit could be inculcated, he said, was while young men were undergoing their compulsory service in the forces. Some 160,000 18-year-olds will enter the armed forces every year and "our responsibility is surely to arrange that during that time we teach them not only soldiering but also those things which will ensure that we return to civil life better men in every way."

He may teach them leadership, discipline and the true meaning of morale.

A Double Purpose

Applause Does Something More Than Give Singer Confidence

An admirer of the late Ernestine Schumann-Heink congratulated her on the success of her tour.

"I suppose," ventured the music lover, "that applause is very important to a singer. It must help to give her confidence."

"Confidence, yes, yes," replied the prima donna in her faltering English. "And then with a broad smile she added: "It gives, too, something even more important. It gives a chance for a singer to catch her breath!" —Christian Science Monitor.

IS WELL NAMED

Old Faithful, a geyser in Yellowstone National Park, which has been erupting on an average of every sixty-five and a half minutes for 20 years, shoots from 10,000 to 12,000 gallons of scalding water about 130 feet at each eruption.

It is well known that governments pass legislation for medical examination before marriage, or compulsory pasteurization of milk, yet they help by giving no legal protection to the public interest.

One hundred thousand members in constant receipt of Health News would represent the powerful public opinion essential to the building of health standards of the community.

Let us hope that illiteracy has been prevented by the Health League of Canada which, among other things, for 26 years has carried on campaigns for immunization, pasteurization, eradication of venereal diseases, proper nutrition, and good health for industrial workers.

INTEREST

HEALTH LEAGUE OF CANADA

You can help build a healthy Canada. Join the Health League of Canada, an organization of volunteers devoted to a program of health education, especially in the field of disease prevention, and to the support of the work of official departments of health.

Proof of the national importance of this great voluntary movement which aims at educating the Canadian people in the ways of good health was revealed during the 1946 League-sponsored "Health Week," which, despite the financial endorsement and active support of the federal and provincial departments of health and provincial departments of education.

Magnificent support for the project (which was followed by "Health and Hygiene Day") was forthcoming from press, radio, magazines, journals and other periodicals and publications, and from numerous national and local advertisers as well as from many public-spirited organizations and individuals.

Such support assured the event of success and it is doubtful if many Canadian homes missed hearing or seeing one or more "health" messages during the occasion. How tragic it would be if all that effort, the iron hand of discipline, was wasted. One way in which this spirit could be inculcated, he said, was while young men were undergoing their compulsory service in the forces. Some 160,000 18-year-olds will enter the armed forces every year and "our responsibility is surely to arrange that during that time we teach them not only soldiering but also those things which will ensure that we return to civil life better men in every way."

He may teach them leadership, discipline and the true meaning of morale.

Remember, an informed public opinion can encourage and stimulate a public measure designed to make for healthier living. And such opinion is being created by the Health League of Canada. Join the Health League and keep informed.

Do likewise, your government for prevention—blame yourselves.

If you expect governments to pass legislation for medical examination before marriage, or compulsory pasteurization of milk, you can help by giving no legal protection to the public interest.

Let us hope that illiteracy has been prevented by the Health League of Canada which, among other things, for 26 years has carried on campaigns for immunization, pasteurization, eradication of venereal diseases, proper nutrition, and good health for industrial workers.

CAN WE PREVENT FAMINE?

That is the heading of an article by Sir Arthur Salter in an issue of "Picture Post" last week. England just sent to us—dated May 1946.

As an authority (Sir Arthur Salter was deputy-director of U.N.R.R.A. 1943-44) he goes on to point out that real famine which may bring starvation to millions now faces a large part of Europe, India and China.

As a unit of measurement applied to every individual, the daily consumption of calories is the universal one.

A summary of the chart accompanying the article gives the food intake of the various peoples at that date. Figures show average daily consumption in calories: 1,500 means severe shortage, 1,000 means slow starvation.

U.S.A.	3000-3400
South America	2800-3200
Denmark	2800-2900
Sweden	2800-2900
Switzerland	2800-2900
Australia	2900
U.S. Kingdom	2900
New Zealand	2800
Turkey	2500
Norway	2200-2500
Iceland	2200-2500
Belgium	2300-2500
France	2300-2500
Holland	Less than 1900
Hungary	Under 1900
Spain	Under 1900
Romania	Under 1900
Portugal	Under 1900
Croatia	Under 1900
Bulgaria	Under 1500
Czechoslovakia	Under 1500
Albania	1200-1700
Austria	1200-1700
Greece	900-1750
Yugoslavia	770-1900
India	1200
China	1000
Japan	1000
Russia	Not known
Germany, U.S. zone	1650
France, U.S. zone	1440
British zone	1043

As those above figures were quoted (in May 1946) there was great hope that crops in the U.S.A., Canada, etc., could be harvested to the maximum, but great difficulties in being experienced from many angles, not the least of which are upset conditions and paralyzed communications in the countries which need the most help.

Even England is rationing bread and certain grains now. The monsoon rains failed in the East, and no monsoon means no rice which is the food of millions.

"Can we prevent famine?" for those poor unfortunate who do not want war, did not start it, but are to be its victims by the million nevertheless.

NEW HOCKEY LEAGUE

CALGARY.—The Kootenay Hockey League is no more, but a new circuit called the Western International Hockey League will be formed with five teams, Trail, Nelson, Kimberley, Spokane and Los Angeles. This announcement was made by Fred Holger, manager of the Los Angeles Rambler, who was in town looking for hockey players. Mr. Holger said the new league opens Oct. 26.

OUR COMPLETE SHORT STORY

GUARDIAN OF THE LAW

By GEORGE C. CHERNISH
Copyright Wheeler Newspaper Syndicate

The commissioner said wearily, "Well, we've got to have action—understand? This whole wave is growing worse by the hour. I know you're busy, but that won't cut ice with the mayor. He's demanded results. That's our move."

Police Captain Steve Brant leaned back in his swivel chair. Piles of newspaper clippings and portraits of wanted men littered his desk. A tall tail of the city was spread out before him.

"These hold-ups are all the same," continued the commissioner. "I pulled the same two numbers. How they have the nerve to stick around here so long, is beyond me."

"We'll get them," Steve's voice was resolute. "These things take time, you know." Commissioner Drury stiffened. "I agree. But you're taking too long. Far too long."

"It can't be helped. We're not miracle-men."

"I don't care what you are. You better do something quick or make room for me."

Steve's retort died on his lips as the commissioner spun on his heel and left. Steve made a mental summary of the case as it stood to date. About a month ago, the two men behind the hold-up had been seen, if at all, of the current hold-up had pulled their first job. Termed the "Black Hoods" by the local press, because of their disguise, the sinister pair had embroiled the entire city. So far, the press had a single clue.

Steve bowed his head. An irate voice, "This is the place!" came from B. J. Turner, over at the East End Grocery. "Say, that new cop you took on sure is a dilly . . ."

"What's your trouble?"

"The new cop, that's what. He takes a notion to stop me about every other day . . . I'm getting fed up, captain . . . The awning in front of my store is a inch lower than the by-law allows . . . He wants to give me a ticket."

"Steve," he pressed a chuckle. "Don't let him worry you, Turner. I'll have him smartern up."

"You'd better," abruptly, "or I'm seeing the mayor."

Two minutes later, Dr. Kittering, the coroner, came in. His sharp features were finished. He shook a stubby forefinger at Steve.

"That rookie you hired is absolutely stupid!" he thundered. "Can't you do better than that?" the coroner rumbled on. "I had to go to the police station and tell Jim to call, and the young fool freed me and gave me a ticket! I explained the situation to him, but it didn't mean a thing."

Steve shook his head. "I'll look into it," he promised. "We've shortened these days, and a lot of folks we're on aren't grade A by any means."

"You say that again!"

When the rookie policeman came in at the last, he addressed Steve for him. He came in hesitantly. Steve said sharply, "You'll have to brighten up a bit, Stark. Learn to use your noodle." He explained about the complaints.

"I'll do my best, the law, sir!" the rookie insisted.

"Technically—yes," Steve told him. "In the light of everyday common sense—no!"

Steve dismissed the rookie, shook his head dolefully and called it a day.

A week later Commissioner Drury stepped into Steve's office. "The hold-up last night, the Black Hoods again."

Steve remained silent.

"I've just come in from the mayor's office," Drury went on. "He gives you a week to pick them up. He paused a moment. "And that Stark kid. Fire him now. He's just a nuisance."

"He's Dan Stark's boy," Steve shook his head sadly. Dan Stark had been shot in the head, his body caved in with a gasoline bullet in his chest. Steve had promised to see that his kid got a break.

As the commissioner left, Steve made up his mind. Let them do

their own dirty work. Good cops weren't made overnight. They all had to learn.

He started for a piolet car brought from the garage. This might be his last day; his last chance to view the city from the seat of a police cruiser. Drury was ruthless. More than one cop had learned that to his regret.

As he prepared to leave the phone rang. The call was from the line, bubbling over with excitement.

"The Black Hoods—young Stark caught 'em! He needed help but he gets the credit—later found their weapons, hood and all!"

"A marvelous piece of work," the commissioner was saying. "Who tipped you off, Stark?"

The rookie shook his head. "No—body, sir," he said. "I arrested them under Section Five, Sub-section two of the city by-law."

"Thunderation!" Steve gasped. "Section Five!"

The commissioner looked puzzled. "What's that, cover?"

"Spit-in on the sidewalk," the rookie said.

Wheat Is Important

But Oats, Barley And Rye Excel It In Gross Value

New rust varieties now being introduced are destined to make growing wheat in Canada a safer and more profitable venture. The new wheat crop is as much on a still higher level among Canada's great natural assets, said Dr. L. H. Newman, Dominion Cerealist, in discussing Cereal Grains, in the Agricultural Institute

Wheat, which remained the most important single grain by reason of its almost universal use as human food, oats and barley, and to a lesser extent rye held first place in a group ranking the standpoint of animal nutrition.

In Canada, however, they actually excelled wheat to a slight degree. Dr. Newman pointed out, but they did not play a very important part in international trade as they were largely consumed in Canada by farm animals.

In general, wheat held a very high place. They ranked first in popularity as a horse feed and stood high as a food for cattle. They actually constituted the bulk of most of the grain feed used.

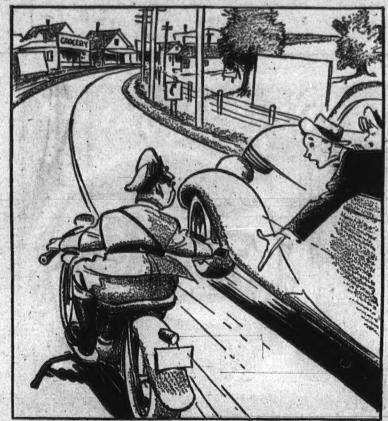

Oats, however, were considered as the most important feed grain.

As human food, oats, chiefly in the form of porridge, have always enjoyed wide popularity as a nourishing and palatable food. Ranking high in vitamin B, they are also used to make substantial contribution to the daily intake of this important vitamin.

According to the latest milling returns available, oatmeal and rolled oats had a valuation of \$0,743,738.

Blended for Quality

"SALADA" TEA

"We were rushing to the grocer's before closing time . . .

Imagine a week-end without delicious Grape-Nuts Flakes!"

"I can't imagine it brother! Step on it and I'll provide a police escort down to the store so you'll be sure of getting your malty-rich, sweet-as-a-mint, four-grain cereal."

"Gee, brother, we're going to eat on the

SELECTED RECIPES

CREOLE FUDGE LOAF (1 egg)

1½ cups sifted Swans Down cake flour

1¾ tps. Calumet Baking Powder

½ tea-spoon salt

1 cup butter or other shortening

½ cup sugar

1 egg, well beaten

2 squares Baker's unsweetened chocolate, melted

¼ cup milk

1 teaspoon vanilla

Sift flour once, measure, add baking powder and salt, mix well and sift together three times. Cream shortening, add sugar gradually, and cream together until light and fluffy. Add egg and beat well. Add melted chocolate and milk, alternately with milk, a small amount at a time, beat well after each addition until smooth. Add vanilla. Pour into greased pan, 8x8x2 inches, in oven (325 deg. F.) 1 hour, or until done. Spread icing on top.

CHOCOLATE WAFFERS

1/2 cup butter

2 cups grated soft cheese

½ cup Worcestershire Sauce

3 drops Tabasco Sauce

3 cups oven-baked rice cereal

½ cup powdered sugar

Beat butter and cheese thoroughly; add Worcestershire and Tabasco sauce; roll cereal into fine crumbs, with flour and sugar; mix together. Shape into waffles. Wrap in wax paper; chill in refrigerator for two hours. Break into small pieces and add to melted chocolate. Add water to make a thin batter. Grease a baking sheet in a moderate oven (375 deg. F.) for 12 minutes. Sprinkle with paprika. Yield: 60 wafers (1 1/4 inches in diameter).

Real Old-Timer

British Ship Built In 1815 To Be Broken Up

Almost the last of Britain's "wooden walls"—the old ship Cornwall—will be broken up at Gravesend on the River Thames and its timbers used for furniture in the United States.

Mr. Walter Fisher is reported on the sick list.

C. J. Tompkins is in town from Calgary on a periodical business visit.

Mr. C. Dancoigne has returned from a holiday in the Okanagan, where he visited with a daughter.

George Cleland, of the Cowley district, was a business visitor to Blairmore last Saturday.

Mr. and Mrs. Reg. Tonge are holidaying at Vancouver, where they are visiting Reg's mother.

Mostyn Hadwell returned to Calgary on Sunday after a short visit at the home of his parents, Mr. and Mrs. T. Hadwell.

Mr. and Mrs. Jack Patterson are leaving on Saturday for Seattle and Bremerton, Wash., where they will visit friends and relatives.

In the exhibition games last week end against Picture Butte, the local Columbus Club broke even, with one win and each club winning one of the three-game series.

Mrs. Gondard and daughter Mrs. Gales, of Spokane, Wash., former residents of Blairmore, are visiting at the home of Mrs. Gondard's sister and brother-in-law, Mr. and Mrs. Silverhorn.

Miss Catherine Patterson, R.N., daughter of Mr. and Mrs. J. Patterson, will leave for Montreal on Saturday, where she'll take a post-graduate course. Her sister Margaret will accompany her.

Fit-Lieut. Victor W. Duke, recently returned from Overseas, spent Sunday in Hillcrest with his parents, Mr. and Mrs. E. O. Duke. Lieut. Duke left Monday for Edmonton, where he will receive permanent posting.

Mrs. Felix Nicolson and two sons Neal and Terry, of Vancouver, BC, are visiting at the home of Mrs. Nicolson's parents, Mr. and Mrs. F. M. Thompson. Mr. Nicolson will join them later.

In statistics released by the Football league in Calgary, Joe Kanik, Purity 99 pitcher, rates high among the hurriers. With 8 wins and 2 losses he placed third; 90 strikeouts and 51 base balls on balls, third, and an earned run average of 1.63, fourth.

Mrs. F. M. Pinkney has arrived home after a visit of several months in Winnipeg with her daughter and son-in-law, Mr. and Mrs. E. Harper. Mrs. Pinkney was accompanied from Winnipeg by her grandchildren, Audrey and Lloyd Pinkney.

"VV"

INDIVIDUALISM

The modern tendency to reduce everything to a formula is deplored by healthy scientists. In the field of infant rearing, while many books have been written on the methods parents should follow, doctors urge that the individuality and essentially personal needs of the child be studied and taken into account. The best way to bring up a child is not by rigid adherence to codes and customs, they say, but by such particular attention as the family physician advises for each individual youngster.

—VV—

HEALTH AND CLEANLINESS

Changes of clothing from grubby work suits to fresh things has an important health, as well as an aesthetic, value, declare experts in the department of national health and welfare, Ottawa. The departmental officers urge parents to teach children at an early age that soiled clothing in not healthy, and it isn't just a fad to change after coming in from work or play. And, clean linens makes one feel better. That, says the department, is an important health factor itself.

Mrs. Dewar, of Coleman, was a Blairmore visitor on Thursday.

You can only die for your country once but you can live for it daily.

Miss E. M. Fulton, of Calgary, has been in Blairmore for a few days, the guest of Mr. and Mrs. J. J. Murray.

The man who isn't much good knows he isn't good for much. But the man who no good thinks he is perfectly all right.

"Three questions and answers" will be the sermon topic at Central United church on Sunday evening. You are cordially invited to be present.

Mrs. Mildred May and her daughter Jewel, of Cheney, Wash., are visitors in town and are house guests of Mr. and Mrs. L. Williams.

Mr. and Mrs. Ronald Johnson, of Windsor, Ontario, are on holiday in the Pass, and are visiting Ronald's mother, Mrs. M. Johnson. It is a number of years since Ronald left here and acquaintances are happy to extend him and his wife a glad hand.

Mr. and Mrs. Harold Pinkney returned home after a three-week holiday spent at Waterton Lakes, Kalispell, and other Montana points. While in Waterton they took part in the Waterton Lakes Lions Club Golf tournament played there three weeks ago.

THAT'S A SURPRISE awaiting you if you haven't yet tried delicious Maxwell House Coffee. It's "Radiant-Roasted" to develop all the extra flavor in the superb Maxwell House blend.

She'll soon have the world at her fingertips because

EATON'S 468-page Fall and Winter Catalogue is in the mail for her now.

CANADA'S TOURIST BUSINESS is YOUR business

TOURIST money spreads around. The garage man, the grocer, the farmer—everybody benefits directly or indirectly. The tourist industry is profitable business—worth protecting. Especially this year when the impression American visitors take back with them will influence Canada's tourist industry through all the years to come.
